POST SHOW REPORT 2013

www.techtexil-india.co.in
Bigger and better than ever before

With a significant increase in exhibition space, exhibitor numbers and visitor attendance, Techtextil India 2013 succeeded in further consolidating its well-established position as the most important trade event for India’s technical textile and nonwoven market.

The exhibition was accompanied by a 2 day symposium, which saw the participation of top-level speakers from the Indian technical textiles industry.

Positive effects and extensive prospects

The most important meeting point for the industry

Our extensive exhibitor survey revealed an exceptional rating for reaching target visitor groups and the overall organisation of the event.

National pavilions

- Belgium
- China
- France
- Germany
- Italy

- 6,660 Total scale (gross, sqm)
- 5,575 Professional Visitors from 36 countries
- 182 Exhibiting Companies from 18 countries
- 20% Increase in international participation
- 46% Increase in business visitors
- 50% Increase in number of exhibitors
Visitors at Techtextil India wanted to establish new business relationships besides finding out about innovations and trends and becoming acquainted with the market in general. Techtextil India 2013 was able to fulfil all these important objectives and more.

The 2013 edition of the Techtextil India Symposium held on 4 and 5 October at the Bombay Exhibition Center, Mumbai focused on the fastest growing product groups and application areas such as Medical Textiles, Protective wear and equipment, Composites and Filtration applications.

Regarded as the key annual event for the Indian Technical Textiles industry to network, exchange insights for growth and stay updated on global trends and developments, the symposium 2013 brought together over 120 delegates representing cross section of the Technical Textiles ecosystem – Garments, Textile processing, Technology solutions, Research & Development and Academia. The Speaker panel comprised of leading industry players, eminent experts and international technology pioneers representing companies such as Reliance Industries, SRF Ltd, DSM Dyneema, Supreme Nonwovens, Freudenberg, Fibertex Nonwovens, Oerlikon Neumag, Dornier Machinery, Saertex India, Welspun India, Arvind PD Composites, Hohenstein etc.

The conference concluded with a Panel discussion themed “Gen-next Round Table”, where young heads of leading Indian technical textile businesses put forth their insights on the growth opportunities in the next decade, challenges and the way forward.

Satisfied visitors cherish attainment of objectives

Techtextil India 2013: A hub for seeking new products and placing orders

“Techtextil India has helped me find what I was looking for! I have seen raw materials and fabrics which I never knew existed in India. The show has definitely introduced me to opportunities existent in India.”

– Charles Robertson,
Vice President,
International Sales,
Lakeland Industries Inc. USA

“Techtextil India not only allows us to derive to conclusions about the kind of product that should be used, but also introduces us to decision makers and technocrats in the industry. The quality of the show has definitely improved from the previous years.”

– P.S Nambiar,
Manager – Competence Centre,
Finishing, Clariant Chemicals India Ltd, Mumbai

“This is the first time that I am visiting Techtextil India, and am looking for new finishing techniques for our fabrics. I have never seen some of the products and technologies that are exhibited here, and I am glad that I took time out to visit the show.”

– Vichanya Oonipat,
Manager, PST – Thai Trading,
Thailand

“Shows like Techtextil India help in bridging the gaps in the Indian market to build about more awareness about product categories and application areas. Techtextil India should be an annual show to help manufacturers like us source more materials.”

– R. Ravi,
General Manager,
India United Mill no. 5, Mumbai
