AUTOMECHANIKA JOHANNESBURG – NEW DATES

Dear Colleagues,

I would like to wish you and your families good health and safety through these times!

Today we're excited to announce the dates of Automechanika Johannesburg 2022. The 7th edition, which was scheduled to take place in September 2021 will now take place from the **9 – 11 March 2022** at Nasrec Expo Centre with a new layout, (including Futuroad and Scalex)

Confirming the new dates proved particularly challenging on account of the exhibition's size coupled with a very busy events' schedule globally from July next year, plus the internal and external aftermarket show calendars however we're confident we've settled on a date that is most suitable for all our stakeholders.

Even though the situation is very heightened at the moment, we believe in the fact that things will improve soon enough and that the need for face to face platforms will resurface as a key way for buyers and sellers within the industry to interact and conduct business!. From today, we have more than a year and a half to work on our show. Our objective is certainly to retain our existing clients at the same time as generating new prospects, while listening and consulting them one by one. We believe that once lockdowns around the world start easing and commercial activities resume, then the whole industry will have to channel their energy into business development, and we shall be ready to serve our clients.

Now, more than ever, it's important for us to come together and ensure business continuity. As passionate advocates for the social and economic benefits of meeting face to face at events, we're committed to staging another successful show in March 2022.

We will continue to keep you all updated on event news in the months ahead. For now, please stay safe, stay healthy, and we look forward to welcoming you to Automechanika Johannesburg in March 2022.

If there is anything I can assist with in the interim please do not hesitate to contact me at any time.

Warm Regards

Tracy Gounden
